GMC employees and supervisors are expected to enforce policy and to exercise good judgment and common sense when deciding when and under what circumstances to apply policy.

Any GMC employee may recommend that a new policy be considered, or an old policy is revised and should make their recommendation known through one of the channels indicated below.

1. **General Administration (1000 through 1999).** The President and Vice President-level supervisors may originate General Administration policies.
2. **Administrative Services (2000 through 2999).** The Vice President-level supervisor responsible for the administrative area addressed by a policy statement normally originates Administrative Services policies.

Policy: 1001 Establishing Georgia Military College (GMC) Policy

Policy Statement:

The President presents to the Board of Trustees for their approval policies that govern operations of the institution.

Note: On April 7, 2015, the Chairman of the GMC Board of Trustees formed a committee composed of GMC Trustees to review the GMC Policy File. The review was completed on April 24, 2015. The committee reported results of the examination to the Board of Trustees during the Board's May 4, 2015 meeting and recommended that the Board of Trustees reaffirm all previously granted approvals, which the Board did by unanimous vote recorded in the minutes of the meeting.

Instructions:

Proposed and revised policies are submitted online to the President.

VP-level department heads originate new policies, review, and update policies, and ensure that the policies are relevant, up to date, and enforceable.

In developing new and revising old policies, care is taken to ensure that the policy does not conflict with, duplicate, or violate existing policy and guidance issued by the Board of Trustees, 5/4/2015 or the President.

Assignment of Policy Numbers:

The Director of Staff assigns policy numbers. The following numbering system will be used.

- General Administration: 1000 through 1999
- Administrative Services: 2000 through 2999
- Student Affairs: 3000 through 3999
- Academic Affairs: 4000 through 4999
- Personnel: 5000 through 5999

Applicability:

GMC policy statements apply institution-wide, are general in nature, and provide broad rather than restrictive guidance.

GMC employees and supervisors are expected to enforce policy and to exercise good judgment when deciding when and under what circumstances to apply policy.

Definitions:

Policies differ from procedures and guidelines in that procedure describes the actions necessary to implement policies.

1. Policies written in the clear, concise, and simple language.
2. Policy statements address the rule and not how to implement rules.

Guidelines are abridged, user-friendly versions of procedures.

As a general rule, policies, procedures, and guidelines appear as separate documents.

Policy 1003: Confidentiality of Records under FERPA

Policy Statement:

It is Georgia Military College policy that no educational records, medical records, banking records, insurance records, disciplinary records, and any other record that has been accorded confidentiality by law or regulations will be released without specific and appropriate authorization as provided for by law or regulation.

Georgia Military College complies with federal and state confidentiality regulations and laws regarding the privacy of student records.

Educational Record Defined:

For the purposes of this policy “educational record” includes but is not limited to: academic records, disability records, medical records, disciplinary records, and financial records generated and maintained as part of the educational career of the individual.

FERPA:

Georgia Military College, in compliance with the Family Educational Rights and Privacy Act (FERPA) of 1974 which is designed to protect the student's rights with regard to educational records maintained by the institution. Under this Act, an eligible student (a student who is 18 years of age) or parent whose child is under the age of 18 has the following rights:

- 1. The right to inspect and review the student's educational record within 45 days of the day the University receives a request for access.**

Students should submit to the registrar, dean, and head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the student of the time and place where records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

- 2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.**

Students may ask the College to amend a record that they believe is inaccurate or misleading. They should write the College official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a

hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information (PII) contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility.

Upon request, the College discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

FERPA requires an institution to make a reasonable attempt to notify the student of the record request unless the institution states in its annual notification that it intends to forward records on request.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Georgia Military College to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. How all parties are to be compensated will be detailed in an appropriate contract, which will be signed by the President.

Intellectual property revenues received by Georgia Military College will be placed in the College General Fund and disbursed as decided by the President.

Copyright provides the creators of original works of authorship with a set of limited exclusive rights, including the right to copy, distribute, and perform their works. - Expulsion,
- Termination,
- Dismissal,
- Permanent removal from a campus, and/or
- Criminal prosecution.

Basis for Action:

Action will be taken if Georgia Military College determines that a student, employee, or visitor to a campus, engages in using, possessing, manufacturing, distributing, maintaining, transporting or receiving, in a residence hall, any location on Georgia Military College (GMC) property, or at any GMC sponsored event, any of the following:

Legal Possession:

Weapons or devices exempt under Georgia Code § 16-11-127.1 to include items used for legitimate athletic purposes, organized sport shooting events, and firearm training courses.

Authorized teachers may use prohibited weapons for classroom purposes and demonstrations with prior approval from the campus Executive Director or GMC Preparatory School Principal. Such approval must include the items to be brought to campus, method of securing the items, and the specific times these items will be on campus. Campus police or security must be notified prior to bringing to campus such items for classroom purposes and demonstrations.

Anyone who possesses a firearm in their vehicle must have a valid firearms permit pursuant to Georgia Code §§ 16-11-129 or 43-38-10. Regardless of the individual's affiliation with the

institution, firearms are strictly prohibited from being removed from a vehicle while on school grounds.

Pursuant to Georgia Code § 16-11-130(c) (4) POST certified police officers are not prohibited from carrying weapons on Georgia Military College campuses.

The President of Georgia Military College has the authority and discretion to approve personnel to carry a firearm pursuant to Georgia Code § 16-11-130.1. Only the President of Georgia Military College, or Executive Vice President acting in the President's absence, has this authority.

Policy 1020: Accommodation of Disabilities

Policy Statement:

It is Georgia Military College policy that the College complies with the *Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973*, which prohibit discrimination against qualified persons with disabilities, as well as other federal and state laws pertaining to individuals with disabilities.

General:

Under the ADA and its amendments, a person has a disability if he or she has a physical or mental impairment that substantially limits a major life activity.

The ADA protects individuals who have a record of a substantially limiting impairment or who are regarded as disabled by the institution whether qualified or not.

A substantial impairment is one that significantly limits or restricts a major life activity such as hearing, seeing, speaking, breathing, performing manual tasks, walking, or caring for oneself.

Responsibility:

Disability Coordinators for the GMC College and Preparatory School operate separately.

The GMC College Coordinator of Academic Support Services is the ADA/504 responsible for coordinating efforts of the college to comply with disability laws, including investigation of any complaint alleging noncompliance. The College Coordinator also supports the GMC Vice President for Human Resources in matters involving GMC employees.

The GMC-Preparatory School ADA/504 Coordinator provides support for the Preparatory School.

Students with Disabilities:

Georgia Military College is committed to provide qualified physically challenged students with reasonable accommodations and support needed to ensure equal access to the academic programs and activities of the College and Preparatory School.

All accommodations are made on a case-by-case basis. A student requesting accommodation must first contact the College or Preparatory School ADA/504 Coordinator, who coordinates services for students with disabilities.

The coordinator reviews documentation provided by the student and, in consultation with the student, determines which accommodations are appropriate to the student's particular needs and academic programs.

Note: This policy is expanded in GMC Policy 4016: Students with Disabilities.

Employees with Disabilities:

Pursuant to the ADA, Georgia Military College will provide reasonable accommodation(s) to all qualified employees with known disabilities, where their disability affects the performance of their essential job functions, except where doing so would be unduly disruptive or would result in undue hardship.

An employee with a disability handles requesting an accommodation in writing to the Vice President of Human Resources (VPHR) and must provide appropriate documentation.

The VPHR, in coordination with the Director of Academic Services and ADA/504 Coordinator, will work with the employee's supervisor to identify which essential functions of the position are affected by the employee's disability and what reasonable accommodations could enable the employee to perform those duties.

Policy 1021: Discriminatory Harassment

Policy Statement:

It is Georgia Military College (GMC) policy that students, staff, administrators, and faculty are entitled to a working environment and educational environment free of discriminatory harassment.

GMC condemns and will not tolerate discriminatory harassment against any employee, student, visitor, or guest on the basis of any status protected by college policy or the law.

General:

Georgia Military College harassment policy is not meant to inhibit or prohibit an educational content or discussions inside or outside of the classroom that include germane, but controversial or sensitive subject matter.

The sections below describe the specific forms of legally prohibited harassment that are also prohibited under Georgia Military College policy.

Discriminatory and Bias-related Harassment:

Harassment constitutes a form of discrimination that is prohibited by law.

Georgia Military College harassment policy explicitly prohibits any form of harassment on the basis of actual or perceived membership in a protected class, by any member or group of the community, which creates a hostile environment, both objectively and subjectively.

A hostile environment may be created by oral, written, graphic, or physical contact or conduct that is sufficiently severe, persistent, or pervasive so as to interfere with, limit, or deny the ability of an individual to participate in or benefit from educational programs or activities, employment access, benefits, or opportunities.

Merely offensive conduct or harassment of a generic nature not on the basis of a protected status may not result in the imposition of discipline under Georgia Military College policy, but will be addressed through confrontation conducted in a civil manner, remedial actions, education, or effective utilization of conflict resolution mechanisms.

Sexual Harassment Definition:

Both the *Equal Employment Opportunity Commission (EEOC)* and the State of Georgia regard sexual harassment as a form of sex/gender discrimination and, therefore, as an unlawful discriminatory practice.

Georgia Military College has adopted an amended version of the EEOC definition of sexual harassment, in order to address the special environment of an academic community, which

consists not only of employer and employees, but of students as well.

Sexual harassment is unwelcome, sexual or gender-based verbal, written, or physical conduct that is sufficiently severe, persistent, or pervasive that it has the effect of unreasonably interfering with, denying, or limiting employment opportunities or the ability to participate in or benefit from the college's educational, social, or residential program, and is based on power differentials (quid pro quo), the creation of a hostile environment, or retaliation.

Sexual Misconduct:

Georgia Military College has defined categories of sexual misconduct, as stated below, for which action under this policy may be imposed.

Generally speaking, Georgia Military College considers Non-Consensual Sexual Intercourse violations to be the most serious, and therefore typically may impose the most severe sanctions, including suspension or expulsion for students and termination for employees.

However, Georgia Military College reserves the right to impose any level of sanction, up to and including suspension, expulsion, or termination, for any act of sexual misconduct or other gender-based offenses based on the facts and circumstances of the particular complaint.

Sexual Misconduct Violations:

Acts of sexual misconduct may be committed by any person upon any other person, regardless of the sex, gender, sexual orientation, or gender identity of those involved. Violations include:

1. Sexual Harassment, already defined

2. Non-Consensual Sexual Intercourse Defined as:

- Any sexual penetration or intercourse
- However slight
- With any object
- By a person upon another person
- That is without consent or by force.

3. Non-Consensual Sexual Contact Defined as:

- Any intentional sexual touching
- However slight
- With any object
- By a person upon another person
- That is without consent or by force.

4. Sexual Exploitation

Sexual Exploitation refers to a situation in which a person takes non-consensual or abusive sexual advantage of another.

Policy 2012: Collection of Student Accounts Receivable

Policy Statement:

Georgia Military College Resource Management Office shall establish internal policies and procedures for the appropriate and cost effective management and collection of student accounts receivable.

General:

Collection of student accounts receivable begins once a receivable is established. The Resource Management Office will develop and publicize procedures for the timely collection of student accounts receivable. These procedures will be communicated, as a minimum, to Vice Presidents, Campus Executive Directors, and Extension Center Directors.

The Resource Management Office will place a hold on the student record, preventing the student from registering, when the student has a delinquent outstanding balance owed to GMC. The hold will be lifted once the obligation is paid. Even though a delinquent account may be written off to bad debt expense, a hold will remain on the student's record until the student's obligation is paid in full.

A student shall pay any past due debts and obligations incurred in prior academic terms before being permitted to register for future terms. In select cases, the Resource Management Office may lift the hold barring registration, under certain circumstances (For example, military tuition assistance billed to the government but not yet paid). No grade reports, diplomas, or transcripts will be issued to any student with any unpaid or delinquent debt or obligation owed to GMC.

Accounts are classified as defaulted when all GMC collection efforts have failed to produce payment. These accounts may be written off the GMC books and subsequently submitted to an outside agency for further collection efforts.

Policy 2013: Travel Expenses

Policy Statement:

The purpose of this policy is to provide guidelines for payment of travel expenses in an efficient, cost effective manner. The Chief Financial Officer is the point of contact for questions or clarifications.

General:

GMC reimburses travelers for reasonable and necessary expenses incurred in connection with approved travel. A necessary expense is one where a clear business purpose exists and supporting documentation is provided.

GMC provides faculty and staff a credit card for GMC travel to reduce the traveler's requirement for cash. GMC issued credit cards will be used for reasonable and necessary business expenses. GMC credit cards may not be used for personal expenses nor used to purchase general supplies, equipment, or services not required for official GMC travel/entertainment. Misuse of credit cards or process violations are addressed in a separate "Credit Card Policy" memorandum. Alcohol is strictly prohibited.

In addition to credit cards, GMC operates a small fleet of vehicles available for traveler convenience when making short business trips. Travelers must coordinate with the Engineering Department to schedule the use of automobiles for official travel. If available, a vehicle will be provided. GMC will not reimburse staff or faculty at the full government rate for use of a privately owned vehicle (POV) if a GMC vehicle is available for travel or if a rental vehicle is available and more cost effective. It is each supervisor's responsibility to ensure GMC vehicle use is maximized and POV use is minimized. GMC mileage reimbursement rates follow IRS guidelines (for 2017 the IRS rate is 53.5¢ per mile). Employees must get approval from their supervisors if they wish to use their POV when a GMC or rental vehicle is available; in these cases, reimbursement will be at the lower state-wide rate (currently 17¢ per mile).

All official travel must be approved prior to travel. Vice Presidents and Campus Executive Directors have the authority to approve domestic travel requests when the cost of travel, including any registration fees, is \$2,500.00 or less. Domestic travel requests costing more than \$2,500.00 may only be approved by the President or Executive Vice President. International travel requests must be approved by the President or Executive Vice President.

During the course of the fiscal year, individual staff and faculty travel is limited to a ceiling of \$5,000.00 per staff member/faculty. Any employee whose projected travel/development cost exceeds \$5,000.00 in a given fiscal year must first have approval from the President or Executive Vice President.

Policy 2014: Cash Management

Policy Statement:

Cash management is fundamental to Georgia Military College's successful business operations. This over-arching cash management policy addresses the general policies of cash management and does not address the standard operating procedures or processes found on the GMC web site. This policy is an institution-wide policy applying to all campuses, departments, and clubs. Specific procedures for the safe handling and reporting of cash transactions are contained in the instructions on the GMC web site,

http://web.gmc.cc.ga.us/fs_center/procedures/receivables.html.

Visibility of available cash is required for effective cash management. The Chief Financial Officer will receive a daily report of cash availability and liquidity. The report will identify cash on hand, cash held in accounts for investment, dollar value of accounts payable, and anticipated payroll requirements at month-end. Information contained in the daily cash report will allow an up to date focus on GMC's liquidity and provide information on cash requirements.

GMC faces multiple risks related to cash, cash equivalents, and checks received by a campus, department or club; the greatest of which is the loss or theft of funds. The best way to mitigate this risk is to deposit the funds in a GMC bank account as quickly as possible. This practice also allows GMC to take advantage of options to maximize investment returns. GMC's procedures include proper internal controls to reduce the risk and temptation of fraud and to ensure the deposits are recorded accurately

General:

All funds collected by any campus or department must be deposited into a GMC account on the date of collection. Where this is impractical the deposit may be made within one business day of collection. This will protect GMC funds as well as facilitate proper cash management.

GMC campuses, departments, and clubs must follow proper procedures and exercise internal controls when handling the collection and deposit of cash and checks. A system of internal controls is designed to provide reasonable assurance errors will be detected and corrected in the normal course of activities. These internal controls include:

- Segregation of duties between personnel who issue billing/receivables, receive funds, deposit funds, and those who reconcile transactions;
- Written procedures and documented controls for issuing billing / receivables, receiving funds, depositing funds, and reconciling transactions;
- Controlled access to resources such as cash/checks, cash equivalents, deposit supplies, account information, and personal information;
- Verification and reconciliation of financial information;
- Approval of refunds / issuing refunds;

A series of high-level process steps is outlined below for controlling funds management within three main cash handling activities: Receiving Funds; Depositing Funds; and Accounting and Reconciliation. The process steps are as follows:

Receiving Funds

- Determine who is authorized to receive funds, and ensure personnel are properly trained
- Ensure money is counted / verified and a receipt is issued
- Ensure funds and information are safeguarded

Depositing Funds

- Determine who is authorized to deposit funds, and ensure personnel are properly trained
- Deposit all funds into a GMC approved bank account in a timely manner
- Ensure funds and information are safeguarded

Accounting and Reconciliation

- Ensure deposits post to the appropriate account
- Reconcile receipts / deposits

Policy 3008: Military Service Leave

Policy Statement:

It is Georgia Military College (GMC) policy to accommodate the withdrawal of students who serve in the U.S. armed forces who may encounter on short notice situations in which military obligations force them to withdraw from a course of study.

Military Service Leave Defined:

For purposes of this policy, a "military service leave" is a GMC approved withdrawal from a GMC course or program that is necessitated by service, whether voluntary or involuntary, in the United States Armed Forces (Active, Guard, or Reserve) for a period of more than 30 consecutive days.

Military Service Leave General:

As soon as possible after receiving military orders that require withdrawal from a program or course of study, a student must contact his or her academic dean and present a copy of the military orders or other appropriate documentation.

This advanced notice can be made by the student or may be done by an appropriate officer of the U.S. Armed Forces or official of the U.S. Department of Defense. The notice need not include a statement of an intention to return to GMC.

If military necessity renders it impossible to provide advanced notice, the student may initiate a military service leave by providing notice at the first reasonable opportunity, in writing, personally signed, and with a copy of the military orders attached, to the Georgia Military College, Office of the Registrar, 201 East Greene Street, Milledgeville, GA 31061 (478-387-4890).

Refunds and Course Credit:

Students who are granted a military service leave will receive a 100% refund of tuition and fees charged for the academic term in which they withdraw, but will be charged for housing and meal plan expenses already incurred.

If the college determines that it be appropriate to award academic credit for work completed during the academic term in which a student takes military service leave, the student shall not receive a refund for the portion of the course of study for which academic credit is awarded.

No refund will be provided until the college receives a copy of the military orders necessitating the withdrawal.

Policy 3009: Military Re-enrollment

Policy Statement:

It is Georgia Military College (GMC) policy that a student who has taken military service leave from GMC or has had studies interrupted because of active duty or active service in a branch of the United States Armed Forces and wishes to re-enroll must notify the college of the intention to return to resume a course of study upon conclusion of duty or service and present appropriate documentation.

"Military Re-enrollment" Defined:

For purposes of this policy, a "military re-enrollment" is a GMC approved re-enrollment into a course or program after a military service leave.

Military re-enrollment guarantees a student who meets these requirements access to the same course of study he/she was in at the time of withdrawal with no re-enrollment fee, unless a student receives a dishonorable or bad conduct discharge or has been sentenced in a court-martial.

Qualify for Re-enrollment:

To qualify for military re-enrollment, a student must provide notice to the college within two years from the time he or she is discharged from military service or is placed on the inactive duty of the intention to re-enroll.

Notice should be provided in writing to the appropriate academic dean, and should include documentation (including an official certificate of release or discharge, a copy of duty orders, or other appropriate documentation) to establish that the student's withdrawal was related to service in the uniformed services and that the student can resume studies.

Any student who did not give written or oral notice of service to Georgia Military College prior to withdrawal because of military necessity may, at the time the student seeks readmission, submit documentation that the student served in a branch of the U.S. Armed Services that necessitated the student's absence from the college.

Re-enrollment Conditions:

A student who meets the notice requirements set forth herein will be granted re-enrollment in the academic term following the notice of intent to return, or, if the student chooses, at the beginning of the next full academic year.

A student who chooses at the conclusion of military service to enroll in a different course of study than the one the student was in at the time of military withdrawal must complete the regular admission and enrollment process for that course of study.

Upon returning to the college, the student will resume his or her course of study without repeating completed coursework and will have the same enrollment status and academic standing as before the military leave.

The student will be charged the same tuition and fee amounts for the first year after re-enrollment as were charged in academic term of withdrawal.

However, if military or veterans' education benefits will cover the difference between the tuition and fee amounts currently charged other students and the amount charged in the academic term of withdrawal, GMC may charge the amounts currently charged to other students.

Re-enrollment Denial:

If a student is not academically prepared to resume a course of study in which he or she was previously enrolled or is unprepared to complete a program, the college will determine whether reasonable means are available to help the student become prepared.

The college may deny the student re-enrollment if it determines that reasonable efforts are not available, or that such efforts have failed to prepare the student to resume the course of study or complete the program.

A student who has been away from the college on military service for more than five years (including all previous absences for military service obligations after initial enrollment but including only time the student spends actually performing service in the uniformed services) will not be guaranteed military re-enrollment, but may petition his or her academic dean for consideration of military re-enrollment.

Policy 4008: Academic Freedom

Policy Statement:

Georgia Military College adheres to a Supreme Court statement that academic freedom is essentially a right of the institution "to determine for itself on academic grounds who may teach, what may be taught, how it shall be taught, and who may be admitted to study" (Rabban, D.M., "Academic Freedom, Individual or Institutional?" *Academe*, Nov.-Dec. 2001, Vol. 87, Number 6.).

Georgia Military College affirms the Joint Statement on Academic Freedom authored by the Association of American Colleges and the American Association of University Professors (1940) that is extracted below, including the interpretive comments, noted in italicized print, adopted by the two organizations in 1970.

"Institutions of higher education are conducted for the common good and not to further the interest of either the individual teacher or the institution as a whole. The common good depends upon the free search for truth and its free exposition...Academic freedom in its teaching aspect is fundamental for the protection of the rights of the teacher in teaching and of the student to freedom in learning. It carries with it duties correlative with rights....

Academic Freedom and Rights:

Teachers are entitled to full freedom in research and the publication of the results, subject to adequate performance of his/her other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.

Teachers are entitled to freedom in the classroom in discussing the subject, but they should be careful not to introduce into teaching controversial matter that has no relation to the subject. Interpretive Comments (AAC&AAUP): *The intent of this statement is not to discourage what is 'controversial.' Controversy is at the heart of the free academic inquiry that the entire statement is designed to foster. The passage serves to underscore the need for teachers to avoid persistently intruding material that has no relation to their subject.*

Teachers are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations.

As a person of learning and as an educational officer, teachers should remember that the public may judge their profession and their institution by their utterances.

Hence, they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinion of others, and should make every effort to indicate that they are not an institutional spokesman."

Policy 4009: Awarding Academic Credit

Policy Statement:

Georgia Military College follows the traditional model of assigning academic credit hours based on the nature of the course, the course content, and the number of hours the course must meet in order to achieve the expected student learning outcomes.

Note: The GMC faculty is responsible for ensuring that each educational offering is assigned academic credit appropriate to the contact class hours, the level of instruction, and course content regardless of format or mode of delivery.

Assignment of Course Credit:

Classes required to meet two hours a week, as in physical education activities courses, are assigned two quarter hours of credit.

Courses required to meet three hours a week, as in advanced military science division courses, are assigned three quarter hours of credit.

Classes meeting five hours a week, as in the case of most academic classes are assigned five quarter hours credit.

Classes that are required to meet six hours per week, as in the case of laboratory-based classes in the natural sciences, are assigned six quarter hours of academic credit.

Transfer of Credit:

Transfer credit is evaluated based on the factors cited above and on the course description.

Georgia Military College accepts courses for transfers that were completed with a grade of C or better and were awarded by a regionally accredited institution.

Georgia Military College assures comparability of transfer credit by a process of evaluating the comparability of course description, learning outcomes, syllabus, and credit hours.

Further analysis includes a review of the transfer institution's catalog and reference to professional manuals to determine institutional accreditation.

For specific/special comparability issues, the analysis is conducted within the academic division and academic discipline. Issues in dispute are referred to the CAO and Dean of Faculty for resolution.

Experiential Learning:

The ACE Guide is employed to assign academic credit in experiential learning.

Conversion of Semester Hours:

Conversion of semester hour credit courses in transfer to the GMC quarter hour based curriculum is accomplished by multiplying the semester hour credit by 1.5 hours to attain the quarter hour equivalent hours.

Policy 4017: Credit Hour Definition

Policy Statement:

It is Georgia Military College policy that the College will conform to commonly accepted practices in higher education and to Department of Education and Commission on Colleges policies for determining the credit hours awarded for courses and programs.

General:

In consonance with federal regulations, GMC will define a credit hour as an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates

1. Not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time, or
2. At least an equivalent amount of work as required outlined in Item 1 above for other academic activities as established by the institution including laboratory work, internships, studio work, and other academic work leading to the award of credit hours.

By commonly accepted practice in higher education, at Georgia Military College a credit hour is a reasonable approximation of a minimum amount of student work in a Carnegie unit (50-minute period).

Quarter System Credit Hours:

As Georgia Military College operates on the quarter system, the quarter credit hour will equate to the equivalent of ten 50-minute sessions of classroom instruction coupled with the expectation that a typical student will require two hours of outside study for each class session in order to achieve the intended learning outcomes.

Typically, over the period of each term, regardless of its length, for each hour of credit there will be 500 minutes of classroom instruction and 1000 minutes of additional study required by a student.

Over the period of a term, regardless of its length, for each hour of laboratory credit, there will be 1000 minutes of in-lab time and 500 minutes of additional study required by a typical student.

Online Credit Hours:

Credit hours for courses delivered using online (distance), hybrid, and independent study modes will be assigned based on at least an equivalent amount of work as required in a traditional classroom setting.

Policy Statement:

Georgia Military College Office of Human Resources operates from a centralized, shared services model. As a result, all of its hiring processes are provided through a centralized on-boarding procedure.

Georgia Military College adheres to a policy of equal opportunity employment and affirmative action in the recruitment, selection, promotion, transfer, demotion, and termination of employees. As such, the institution initiates all employment actions on the basis of qualifications specific to requirements of the job and/or job performance, without regard for race, sex, color, religion, national origin, age, disability, or veteran status.

General:

Refer to policies 4001 and 4006 and the GMC Faculty Handbook regarding faculty appointments and contracts.

Full-time employees are employees who regularly work 30 hours or more a week and have a definite term of employment, with the minimum term being three months or longer. Part-time employees, for the purposes of policy 5013, are employees who work 29 hours or less per week and comply with the Affordable Healthcare Act and TRS eligibility guidelines. Part-time employees do not include federal work study students, student ambassadors, or tutors.

As vacancies occur, or new positions are created, the hiring manager may choose to promote or transfer an employee from within their area(s) of responsibility. Prior to a promotion or transfer being awarded, the hiring manager must first seek approval from the Executive Vice President with a recommendation from the Vice President of Human Resources.

Prior to the position being awarded, promotions and transfers are reviewed and approved by the College EEO/Affirmative Action Officer, who is the Vice President for Human Resources.

If there is no internal candidate to promote or transfer, the vacancy will be posted/advertised simultaneously, both internally (within Georgia Military College) and externally.

All job advertisements will contain the statement that "Georgia Military College is an Equal Opportunity/Affirmative Action Employer".

All applicants must submit an Application for Employment for a specific job vacancy. Also, faculty applicants must submit current official transcripts, certification of degree and professional qualifications, and three letters of reference.

The Vice President of Human Resources endorses each budgeted employment offer with final approval from the Executive Vice President.

The President has the sole authority to approve any unfunded requests related to employment offers.

Screening Applicants:

The Human Resources Department screens only those applications that meet at least the minimal job requirements for the vacancy being filled. From this pool of qualified applicants, candidates are selected and interviewed.

Upon conclusion of the interviews and after the closing date for the vacancy has passed (or at any time after the conclusion of the interviews if no closing date was listed on the posting) a job offer may be made, contingent upon successful completion of the reference checks and a criminal background screen.

Warning:

Applicants may be disqualified from consideration for employment for falsification of application information, criminal conviction, or for drug or alcohol abuse.

Applicants who are known to engage in behaviors that violate community standards of conduct may also be disqualified from consideration.

Subsequent to the hiring of an employee, should an application be determined to have been falsified, such falsification may result in disciplinary action up to and including termination of employment.

Should an application be determined to have been falsified before the employee's start date with GMC, such falsification will be grounds to rescind the employment offer.

Policy 5016: Termination of Employment

Policy Statement:

Georgia Military College is an At-Will employer.

"At-Will" Defined:

According to the Georgia Supreme Court in (*Georgia Power Co. v Busbin*, 242 Ga 612), "at-will" means that motives of an employer in terminating an at-will employee are legally immaterial. Because the reason for termination is legally immaterial, an employer can release any employee for any reason or no reason, good reason or bad reason. The reason behind the termination does not matter. Georgia employment law gives employers broad discretion in deciding who will work for them.

Termination Impact on Pay and Benefits:

Any employee terminated for any reason shall not be paid for any official holidays or scheduled paid "days off" such as spring break or Christmas break if they occur after the date of termination.

Accrued vacation and compensatory time may be used as terminal leave, or the employee may be compensated for accrued vacation and compensatory time.

Unused sick leave will not be compensated; however, it may be credited towards retirement under the Teachers Retirement System of Georgia.

Any negative leave balance will be deducted from an employee's final pay.

Employees Who Wish to Resign instead of Termination:

Employees who wish to resign instead of termination must submit a written resignation to their immediate supervisor and provide a copy to Georgia Military College (GMC) Vice President for Human Resources.

An employee shall give no less than two weeks' notice unless a shorter period is acceptable to the supervisor, and the supervisor must so indicate his or her approval on the resignation and provide a copy of that approval to the GMC Vice President for Human Resources.

Georgia Military College reserves the right to accept or refuse an employee's application for resignation instead of termination.

Termination Based on Cause:

An employee's immediate supervisor may dismiss that employee if his or her performance of duty or conduct is substandard or otherwise unsatisfactory.

An employee will be counseled verbally and in writing before termination. Supervisors will maintain a file documenting all counseling.

In all instances, before terminating an employee, supervisors will consult with the GMC Vice President for Human Resources.

Notification:

An employee will be informed of his/her termination in writing; however, it is Georgia Military College's practice that such notification will be limited to a simple statement of termination.

Employees do not have the right to grieve termination.

Prohibited Behaviors:

The following types of behavior or activity constitute an employee's violation of the College's Drug and Alcohol Abuse Prevention Policy and may result in disciplinary action, up to and including termination of employment:

Reporting for work with any detectable level of alcohol, controlled substance, intoxicant or other illegal substance in their system.

Engaging in the unauthorized use of any alcohol or illegal drug on College premises, including meal or rest breaks, or while conducting College business whether on or off campus.

Having in their possession or attempting to distribute, sell, obtain, manufacture, transfer, share, or receive any alcohol, controlled substance (drugs), or any other substances that impair job performance, pose a hazard to the safety and welfare to the employee, student, or all other persons, including drug paraphernalia or alcohol containers, on College premises, including meal or rest breaks, or while conducting College business.

Warning:

Violation of this policy will result in disciplinary action up to and including immediate termination or denial of employment.

The determination of what action is appropriate in each case rests solely with the College. The College also may report persons in violation of this policy to law enforcement authorities if the College in its sole discretion deems it necessary or appropriate to do so.

Employees are expected to cooperate with the College in the investigation of possible violations of this policy. Accordingly, employees must report any known or suspected violations to their supervisor, a Human Resources representative, or other management personnel.

As a condition of employment with the College, all employees and applicants for employment must abide by the terms of this policy, a copy of which is given to all employees and applicants for employment.

Employees who are convicted under a criminal drug statute for violations occurring on or off

Policy 5023: Drug and Alcohol Testing

Policy Statement:

It is Georgia Military College policy that job applicants who have been given a conditional offer of employment and prior to commencing employment with the College will submit to drug and alcohol testing.

Warning:

A confirmed test result indicating the presence of drugs and/or alcohol may result in the revocation of any job offer that has been extended to such job applicant.

Employees Subject to Drug and Alcohol Testing:

Current employees covered by this policy will be subject to drug and/or alcohol testing under the following circumstances:

Reasonable Suspicion Testing (“For Cause” Testing) – Where the College has a reasonable suspicion that an employee is under the influence of drugs or alcohol, the employee will be required to take a drug and/or alcohol test. For purposes of this policy, “reasonable suspicion” means reasonable grounds to suspect that an employee is in possession or under the influence of drugs or alcohol. The determination whether reasonable suspicion exists in a particular situation shall be made by department-level supervisors in consultation with a Human Resources representative.

Any employee directed to take a drug and/or alcohol test based on reasonable suspicion will be relieved from duty, transported to the testing laboratory, and will be suspended without pay pending the College’s receipt of test results. If the test result is negative, the employee will receive back pay in an amount equal to the wages lost while suspended. A confirmed positive test result indicating the use of drugs or alcohol will result in immediate termination.

Post-Incident Testing – Employees involved in a safety incident or near-miss incident in which it appears that actions of an employee may be a contributing factor or cause must submit to post-incident tests as part of the investigation of any such incident.

Random Testing – Employees may be subject to unannounced drug testing without individualized suspicion of a violation of the College’s substance abuse policy.

Selection is made by neutral criteria so that all employees eligible for testing have an equal opportunity of being tested. Selection may be made on the basis of the department, job classification, work site, or other classifications.

Refusal to Submit to Testing:

An employee’s refusal to submit to drug testing will be considered insubordination and grounds for termination.

Failure to provide a specimen adequate to conduct a drug or alcohol test without a valid medical explanation, as well as any attempt to tamper with or otherwise falsify or interfere with the testing process shall be equivalent to refusal of testing, and may result in immediate termination or denial of employment.

Confirmation of Positive Tests:

All "positive" tests will be subjected to a secondary, confirmatory test.

Employee Notification of Positive Tests:

If an employee's drug or alcohol test is deemed positive, the employee will be notified in writing.

For a urine test, the employee has the right to retest the same sample at the same or another licensed laboratory.

An employee may request the independent test by notifying Human Resources in writing within fifteen (15) days after the day the employee is informed of the test results. The charges incurred with a retest will be at the employee's expense.

Privacy:

All information gathered or disclosed during the testing process will be kept confidential. No references to an employee's rehabilitation, medical conditions or disabilities will be placed in an employee's personnel file.

An employee should disclose relevant and necessary information about medical conditions or legal drug use only with medical professionals involved directly in the testing procedure. Such information should not be disclosed to College supervisors.

Information gathered or disclosed during the testing process concerning an individual employee will be disclosed only on a need-to-know basis, such as to managers or other personnel involved in the decision to or in the implementation of discipline.

This confidential information will not be disclosed to any other party without the written consent of the employee, except pursuant to an administrative or legal procedure or process, to the extent permitted or required by law.

Employee Counseling Assistance:

It is the responsibility of each employee to seek counseling or medical assistance before alcohol and/or drug-abuse problems lead to a violation of this or another College policy justifying disciplinary action.

An employee's decision to seek help voluntarily will not be used as a basis for disciplinary

action against the employee.

An employee's decision to seek assistance under this policy will be considered voluntary only if the employee seeks assistance prior to being asked to take a drug and/or alcohol test. Any request for assistance that is made after an employee has been asked to take a test under this policy will not prevent the employee from being discharged for violation of College policy.

Entering into such a program will not protect employees from the consequences of substandard work performance or policy violations.

Policy 5024: Sick Leave Donation Policy

Policy Statement:

It is Georgia Military College policy that any employee who wishes to transfer a portion of his/her sick leave may do so and must sign an acknowledgement statement and waiver forms indicating the number of days to be transferred.

General:

The purpose of this policy is to help voluntarily alleviate another employee's hardship caused if catastrophic illness or injury forces an employee to exhaust all earned sick leave time and thereby placing the sick or injured employee at risk of losing compensation.

The minimum amount of sick leave an employee may contribute is one day.

The donating employee must retain a minimum of five (5) days of sick leave in their personal account. Once sick leave has been donated, it cannot be restored to the donating employee.

Employees must designate a particular employee to receive their donated time.

Any donation of sick leave time will be voluntary, and the College, and its management will in no way solicit employees for a donation of accrued sick leave time on behalf of another employee.
